

EXLEY APIARY

Keeping bees since 2005.

CAPABILITY STATEMENT

Managed apiary programs for schools, universities, corporate campuses and restaurants in Central Texas.

Who I am

Exley Apiary designs, installs and services managed apiaries on Central Texas grounds. Owner and beekeeper Nathan Exley has kept bees since 2005 and holds a B.S. in Rangeland Ecology and Management from Texas A&M University. Every hive is built in-house, and the beekeeper who installs your apiary is the one who services it.

Core capabilities

- ◆ Site assessment and siting plan that keeps foot traffic and flight paths apart
- ◆ Apiary installation: insulated Layens hives and stands built in-house, fencing and interpretive signage
- ◆ Scheduled service visits and colony management through the season
- ◆ Annual program report: colony counts, dated photographs and an activity log for sustainability reporting
- ◆ On-site honey extraction and bottling under your organization's name
- ◆ Educational programming: hive sessions, club meetings, open apiary days and course labs
- ◆ Pollinator habitat planning with native plant recommendations for your grounds
- ◆ Safety planning with your risk management or EHS team: orientation, protective equipment and allergy protocols

How a program comes together

- 1 Request a bid.** Site, goals and timeline.
- 2 Vendor onboarding.** W-9, agreement, procurement.
- 3 Site assessment.** Access, traffic, water and forage.
- 4 Spring installation.** Hives, bees, fencing, signage.
- 5 Written proposal.** Scope, schedule, itemized pricing.
- 6 Service and reporting.** Visits and an annual report.

Program structure. A one-time startup cost to establish the apiary, plus an annual service fee. Every proposal is written and itemized.
